Welcome to Fernwood

You have come to **Fernwood** to remember someone you have known and loved—or perhaps to decide how you wish to be remembered. Though death is the cause of our meeting, let us celebrate life. Our hope is to help you fill the emptiness of loss by assisting you in expressing the richness and particular beauty of a life that was like no other.

The 19th-century **Fernwood** Cemetery in Mill Valley, California, is being recreated as a place of ecological restoration, community, and remembrance. **Fernwood** is not only a crematory and a funeral home but also a memorial landscape where natural burial and cremation rituals are interwoven with land restoration and preservation.

A memorial service, one of the most sacred events any of us will prepare, takes much thought and consideration. Whether you want to do something indoors or outdoors, whether you want it to be religious or non-denominational, we can help you create it. Our Remembrance Room is suitable for many different services, from religious ceremonies to Circles of Friends. Each person and family are invited to bring creativity and personal vision to this place.

Fernwood is a unique site where families and histories connect through cycles of nature, memory, and conservation. **Fernwood** provides a place for spiritual connection to our ancestors and to the Earth.

Please Note: *This General Price List is for those considering using our Funeral Home services. Our funeral packages are available only when the casket has been purchased through our funeral home. If you purchase the casket elsewhere, please select from the itemized list of services and merchandise to complete the funeral service of your choice. This policy does not apply to urns and cremation packages. Caskets, urns, outer burial containers and cemetery options come in many varieties and are not included in our packages but are offered on separate price lists provided at Fernwood.*

Our staff will gladly provide you with copies of these.

Outer Burial Container Prices

State or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements. At Fernwood, we may require an outer burial container in the traditional sections of the cemetery only when it is absolutely necessary for health, safety, or ecological reasons. Installation fees are additional and are based on type of vault and material. Outer Burial Containers are not permitted in the natural burial sections.
